Projects

Modern Furniture Store – Responsive E-Commerce Website

July 2024

xWave: A tech initiative dedicated to eradicate poverty and empower students with IT courses.

Fellow:

- Designed a fully responsive furniture e-commerce website that allows users to browse collections, add items to their cart, and manage accounts effortlessly. Integrated with an API for signup and login, the site delivers a sleek, minimalistic interface, providing a seamless shopping experience on any device.

PORTFOLIO WEBSITE

May 2024

xWave: A tech initiative dedicated to eradicate poverty and empower students with IT courses.

Fellow:

- Created a single-page personal portfolio landing page using HTML5 and CSS3, inspired by a Figma design. The page features a clean layout that effectively showcases my skills, projects, and experience as a frontend web developer.
